

## **Brownfields 2014 Assessment Grant Fact Sheet Hopewell, VA**

### **EPA Brownfields Program**

EPA's Brownfields Program empowers states, communities, and other stakeholders to work together to prevent, assess, safely clean up, and sustainably reuse brownfields. A brownfield site is real property, the expansion, redevelopment, or reuse of which may be complicated by the presence or potential presence of a hazardous substance, pollutant, or contaminant. In 2002, the Small Business Liability Relief and Brownfields Revitalization Act was passed to help states and communities around the country cleanup and revitalize brownfields sites. Under this law, EPA provides financial assistance to eligible applicants through four competitive grant programs: assessment grants, revolving loan fund grants, cleanup grants, and job training grants. Additionally, funding support is provided to state and tribal response programs through a separate mechanism.

### **Assessment Grants**

*\$200,000 for hazardous substances*

*\$200,000 for petroleum*

EPA has selected the City of Hopewell for two brownfields assessment grants. Community-wide hazardous substances funds will be used to conduct approximately six Phase I and two Phase II environmental site assessments. Petroleum grant funds will be used to conduct approximately eight Phase I and four Phase II environmental site assessments. Grant funds of both types will be used to conduct cleanup planning, and support public meetings and preparation of informational materials.
